## Product catalogue New products in the offer

Modern bathrooms combine new comfort ranges and a beautiful form. New, expressive forms and intelligent solutions meet the highest quality standards. The new series of VAYER® products will delight you with its unique aesthetics, incredible functionality and durability for many years.

The VAYER® brand is a dynamically growing brand that is the answer to today's needs of a demanding interior design market. We have expanded our product portfolio for new design lines, the most advanced technological solutions and hydro massage systems installed in bathtubs, as well as fully ergonomic and practical bathroom furniture.

You are invited to see our current product offer.

---

# VAYER® BRAND

Meet technological innovations  
created for your everyday comfort

VAYER® is an exceptional native brand with unique technological solutions which clearly improve the comfort of use and which are rarely applied by other manufacturers. We are constantly improving our products' standard and quality by introducing further innovations. For our clients, we improve what seems already perfect.

Patented by the best technologists antimicrobial nano silver coating or a bathtub heating system are the solutions which distinguish our products among the competitors.

The innovative VAYER® brand is also a universal and timeless design with temperament perfectly matching current trends. The most modern technologies combined together with creative thought, many years of experience and precision of human hands create exceptional products with unique properties.

## Harmonious beauty of a modern bathroom

Today's trends in interior design are based on a subdued and visually harmonious functional space. The most important is the cleanliness of the bathroom decor. Modern bathrooms are often changed into mini spa. If we only have a place, we are happy to arrange bathrooms equipped with freestanding bathtubs and large cabins with rain shower heads. We will obtain a consistent design if the individual elements match each other, for example, the outline of a washbasin can repeat the shape of a bathtub. Complementary VAYER® bathroom collections are a great choice for those who want to bring luxury to their bathroom at a reasonable price.

# VAYER® INNOVATIONS

## EVERHARD® Unique aesthetics and durability for years

Development of **EVERHARD®** coating was based on a modified polymer base and thanks to its unique formula it creates a barrier minimizing the risk of material damage during the usage.

The surface of our products is covered with hardened resin mixed with quartz particles and pigment to give them smoothness and gloss. Depending on the percentage composition of the substance concentrations, we can modify the appearance of our products - from high gloss, through satin, to elegant matte.

**EVERHARD®** technology allows for a perfect finish of any product regardless of its form and gives it extraordinary durability and long-term resistance to harmful effects of external factors.

**EVERHARD®** is an ideal protection for shower trays, bathtubs and washbasins made of conglomerate. The solution is environmentally friendly and fully natural.

Thanks to the innovative **EVERHARD®** technology, our products are characterized by exceptional durability for many years of use.

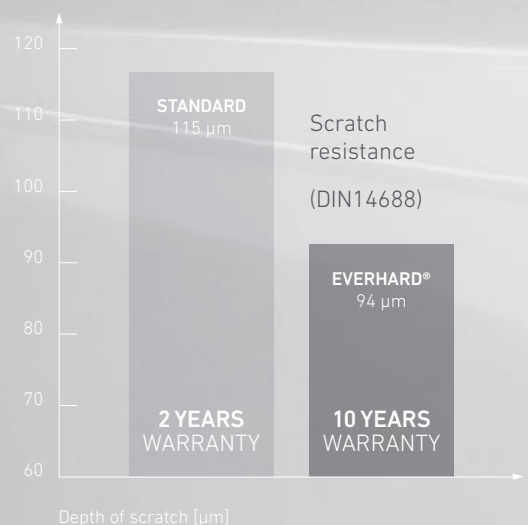

The **EVERHARD®** coating is a guarantee of very high resistance to scratch and mechanical surface damage.

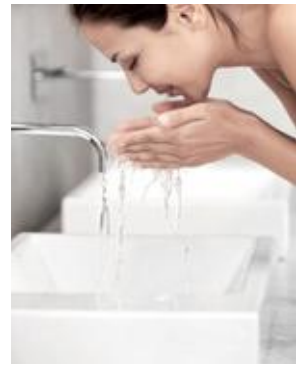

## EVERHARD® Innovative technology with many advantages

**EVERHARD®** is a modified gel coat which, thanks to the use of modern technology, gained high strength parameters and exceptional properties in everyday use.

- 40% higher abrasion resistance
- 50% greater resistance to disappearance of gloss from the surface
- 20% higher resistance to harmful UV radiation
- 20% higher resistance to scratches and permanent discoloration

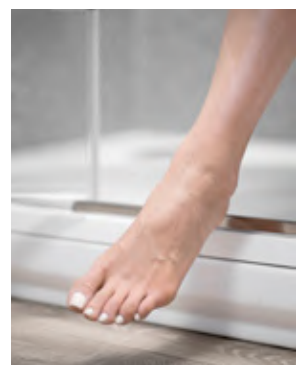

A self-cleaning bathroom which cares for your health – this is what we call technology of the future. Thanks to VAYER® brand it can become the reality of every modern household.

## **NANO SILVER®** Innovative microbiological protection

The secret of reliable quality of VAYER® products is in nanoparticles.

We refined all elements of our collections with the nanosilver coating. VAYER® washbasins, bathtubs and shower trays are covered with an antibacterial structure that spontaneously fights off bacteria and prevents their development. It gives the surfaces antibacterial, antifungal and antistatic properties. It improves the reflection of sunlight, thanks to which it lowers the heating of the surfaces covered with them.

Products with new properties are a proposal for recipients who are sensitive to health and safety. The number of conscious customers is constantly increasing while raising social level and the level of knowledge in the field of microbiological protection.

Tactile control panels are intuitive, discreet and very aesthetic. They blend in perfectly with any bathtub model from any VAYER® collection.

Functional VAYER® hydro massage bathtubs are the perfect choice for people who can appreciate a relaxing value of everyday bath.

## Innovative technology of maintaining the same temperature of water in a bathtub and additional heating in a bathroom

A bathtub is still the most important element of bathroom equipment for many people. A dream of constantly warm bathtub comes true because of our modern system VAYER® ETNA.

Thanks to connecting it to central heating, a bathtub keeps the water temperature still as long as you want it, at the same time being a bathroom heater. The innovative design allows unlimited warm bathing saving water and energy.

Modern technological solutions in VAYER® bathtubs allow for maximum comfortable use and give the possibility of full regulation of water pressure and intensity of massage.

Hydrotherapy uses water in every form for external action on the body. Its action is healing and relaxing thanks to the proper pressure at which it is pumped.

Hydro massage is a perfect combination of traditional massage advantages and relaxing bathing properties.

## Hydrotherapy

An air hydro massage is more delicate than a water one. Its main advantage is skin oxygenation and in case of using an ozonator pump it has an additional bactericidal, fungicidal and virucidal functions. An air massage ventilates the skin, increases blood circulation, relaxes muscles, joints and connective tissue. It is of particular importance in case of tension muscle pain, sciatica, intervertebral discs damage and many other diseases.

Baths with the air have also very valuable cosmetic advantages. They help remove pregnancy changes, reduce cellulite and improve condition of a skin.

## Relaxing chromotherapy

It is considered as an alternative form of treatment with light and colour. It increases body immunity, lowers stress and creates a feeling of calmness and relaxation. Colours have their temperature and sharpness which can directly affect our mental and physical condition.

The diodes, integrated with a bathtub surface, beautifully highlight water and give it a colour which you can select. All you need is one button and the LED spotlights will light up the inside of a bathtub. Colours have great influence on our mind. They stimulate and relax as well.

The red colour supports circulation and evidently stimulates.

The green colour improves the mood and even supports metabolism.

Shades of blue help to calm down and support the treatment of rheumatism.

White colour in chromotherapy improves well-being and inner peace.

All hanging furniture from the VAYER® MOBILA series have hangers with a safety lock against accidental dropping of a unit. They increase safety and comfort of furniture assembly on the wall. They also have easy and smooth adjustment that allows leveling the furniture.

## Convenience above all

As standard, hinges and guides with a built-in silent closing system are fitted to all VAYER® MOBILI furniture. It improves the use of bathroom furniture by slowing down and silencing the lockable element. The use of this system significantly increases safety and comfort of everyday use. In our furniture offer you will find a wide range of modern and ergonomic bathroom solutions.

# VAYER® MOBILI

## A new product in the offer Elegant bathroom furniture

Because of the expansion of our offer, we would like to present you the new VAYER® MOBILI product line, which includes high-quality bathroom furniture. All models in our offer are a combination of the highest quality materials and an original idea for the development of a functional bathroom space. A multitude of forms and solutions will allow our clients to match them ideally to the dream bathroom design, thus creating an exclusive and amazing interior.

A big advantage of the presented furniture and accessories is their functionality, which makes them not only pleasing to the eye, but also meets all the requirements for everyday use.

Customization of solutions is a service thanks to which you ideally match our furniture to your own individual needs. We offer a wide range of dimensions, standard colours to choose from and matching the appropriate functionality.

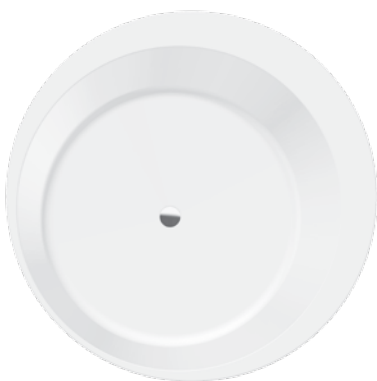

In cooperation with our design department and technologists we will create a unique bathroom.

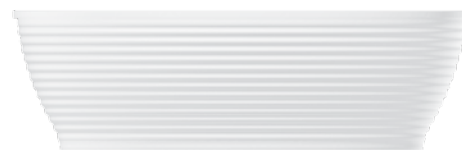

## Ingenious solutions in the constructions of bathtubs

The construction of a VAYER®-style bathtub means not only hiding a non-aesthetic sewage system or giving the interior harmony and consistency. A well-designed construction with functional doors can form a classic storage for cosmetics and cleaning supplies and provide access to the installation in case of a breakdown.

**160.160.058.4-5.0.3.0**  
Round freestanding bathtub  
with grooved panel ø1600

**194.100.058.4-4.0.3.0 PK**  
Oval freestanding bathtub  
with grooved panel 1940 x 1000

Thanks to great technological innovations, bathing in the VAYER® OVAL series bathtub takes on a completely new dimension of comfort.

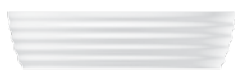

In both models of VAYER® OVAL bathtubs it is possible to install lighting, a hydro massage system, an ozone system and a modern bluetooth sound system.

The producer offers a modern siphon with pressure overflow in a set of a round bathtub.

# VAYER® OVAL

## Original elegance

VAYER® OVAL is a characteristic series based on streamline shape of an oval. When creating this collection we aimed at combining technology with emotions, aesthetics with functionality. The shape of elements is distinguished by newly discovered asymmetry. VAYER® OVAL collection is the evolution of design based on mild geometry. Thanks to soft lines and grooves, a bathroom interior acquires a friendly character. The VAYER® OVAL series can successfully be integrated with both classic and modern style.

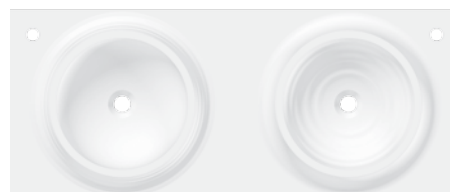

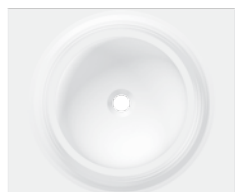

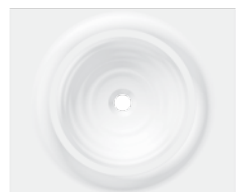

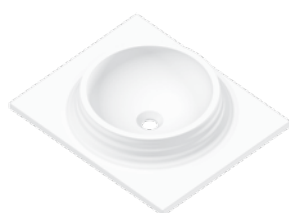

**060.043.012.3-4.0.3.0**  
Countertop washbasin  
600 x 430 x 150

**035.035.012.3-5.0.2.0 A**  
Inset washbasin  
ø350

The offer includes three models of washbasins: column, countertop and inset washbasin.

A washbasin without visible mounting holes allows a washbasin to be placed anywhere in a bathroom.

**060.043.088.3-4.0.3.0 PK**  
Column grooved washbasin  
600 x 430 x 880

**060.050.012.3-1.0.1.0 A**  
Single countertop washbasin  
600 x 500 x 105

**060.050.012.3-1.0.1.0 B**  
Single countertop washbasin  
600 x 500 x 105

**120.050.012.3-1.0.1.0**  
Double countertop washbasin  
1200 x 500 x 105

Decorative grooved basins perfectly match their shape to the circles of water in them.

VAYER® PURE series  
is a unique offer for admirers  
of timeless simplicity and elegance.

## Unbeatable quality

A freestanding VAYER® PURE bathtub is made of the highest quality acrylic panel reinforced with a mixture of resin and ground volcanic stone called amanzonite.

A bathtub made with this technology is durable, resistant to scratches and maintains its temperature. An outer acrylic layer provides high comfort of use thanks to smooth and warm surface.

# VAYER® PURE

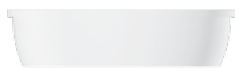

## Timeless clear form

VAYER® PURE series is a unique offer for admirers of timeless simplicity and elegance. A characteristic oval shape and clear form of this series elements make it ideally suited to almost every style of arrangement. Perfect finish of details combined with technological innovations will delight and meet the expectations of the most demanding recipients.

VAYER® PURE is a universal style in the best elegant edition.

**060.043.088.3-4.0.3.0 PG**  
Column washbasin  
600 x 430 x 880

**060.043.012.3-4.0.1.0**  
Countertop washbasin  
600 x 430 x 150

**060.043.012.3-4.0.1.0**  
Inset washbasin  
600 x 430 x 20

**035.035.012.3-5.0.2.0 B**  
Countertop washbasin  
ø350

All VAYER® PURE series washbasins are made of high quality marble conglomerate with antimicrobial properties.

Options for choosing a washbasin make it possible to use a freestanding tap or a classic washbasin tap installed in a wall or on a countertop.

The feeling of stability and solidity is created by improved construction and filled edges of a bathtub. Double reinforcement means that the bottom does not bend under the user's weight. The additional layer also allows you to maintain the water temperature for a much longer time.

**194.100.058.4-4.0.3.0 PG**  
Oval freestanding bathtub  
with plain panel 1940 x 1000

All elements of VAYER® BOOMERANG series are available in many sizes and options to allow the arrangement of any type of a bathroom.

## Natural shapes

The inspiration for VAYER® BOOMERANG series was the nature itself where you can observe countless number of round shapes and curved lines.

Even light runs along a curved line and falling water cascades take the shape of a boomerang. In this soft and fluid line hidden force and energy will add a dynamic character to your bathroom.

# VAYER® BOOMERANG

## Inspiration from nature

In our projects we constantly strive to reach maximum harmony between sophisticated aesthetics and functionality. We want everyone who loves beauty to be able to implement the idea of synergy to their own vision of interior design.

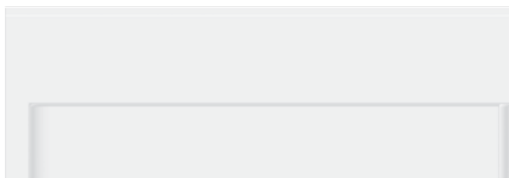

Thanks to modern technology we create products with exceptional properties. The bathtubs from VAYER® BOOMERANG series are made of the highest quality acrylic panel reinforced with a mixture of resin and ground volcanic stone called amazonite. The bathtubs have extra reinforced and filled edges.

Soon our offer will include new line of bathtubs with additional functions: modern hydro massage systems or a bluetooth sound system.

**170.075.045.1-1.0.0.0**  
Rectangular bathtub 1700 x 750

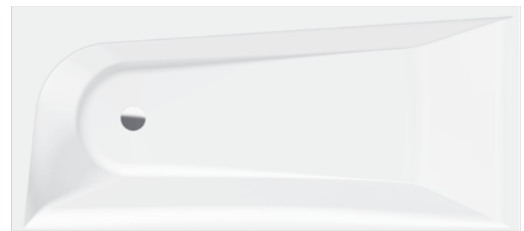

**170.075.056.4-1.1.0.0**  
Rectangular bathtub panel 1700 x 560

**170.090.045.1-2.2.0.0**

**170.090.045.1-2.1.0.0**  
Asymmetrical bathtub left 1500 x 1500

**180.080.045.1-1.1.0.00**  
Rectangular bathtub 1800 x 800

The offer includes lightning installation (chromotherapy) in options: external / internal / external and internal.

**150.150.046.1-3.0.0.0**  
Symmetrical corner bathtub 1500 x 1500

## Clear and universal design and simplicity

The inclusion of a curved line in our products resulted in a combination of innovative solutions with sophisticated functional form which will add splendour to both classical and modern interiors.

**120.050.005.3-1.0.1.0**  
Washbasin 1200 x 500

The idea of VAYER® BOOMERANG comes down to one characteristic line that fits many styles.

**090.090.002.2-6.0.0.0**  
Square shower tray 900 x 900

**090.090.002.2-7.0.0.0**  
Pentagonal shower tray 900 x 900

**090.090.002.2-3.0.0.0**  
Semicircular shower tray 900 x 900 R550

**120.090.002.2-1.1.0.0**  
Rectangular shower tray left 1200 x 900

## Discreet and functional

All models of washbasins and shower trays from the VAYER® BOOMERANG series are made of marble conglomerate covered with antimicrobial coating. A characteristic feature of the VAYER® BOOMERANG series is a discreetly hidden drain under an aesthetic flip cover.

# VAYER® VOLANS DUAL COLOUR

## The magic of contrast

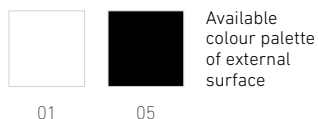

Meeting the expectations of our clients we created a new elegant series in a classic and timeless style where we offer a two-colour freestanding bathtub, a countertop washbasin and a freestanding washbasin.

Minimalist style, ergonomic shape and optimal size allow to use the VAYER® VOLANS series even in standard small size bathrooms. All elements of the series are made of high quality marble conglomerate with antimicrobial coating. Universal colours allow for a wide range of arrangement solutions.

Modern production technology of cast marble bathtubs from this series allowed for the use of internal linear overflow.

**151.072.040.1-4.0.3.0.1**  
Freestanding bathtub  
1510 x 720

**045.033.085.3-4.0.3.0.0**  
Freestanding washbasin  
455 x 330 x 850

**045.033.035.3-4.0.1.0.0**  
Countertop washbasin  
455 x 330 x 355

**045.033.014.3-4.0.1.0.0**  
Countertop washbasin  
455 x 330 x 145

In the VAYER® VOLANS model it is possible to use a discrete internal overflow.

## Arrangement options

Countertop and freestanding washbasins are the latest trend in equipping a contemporary bathroom. In the VAYER® VOLANS series, we offer a unique model that will add elegance to any interior. Due to the specificity of their design, freestanding washbasins take up a lot of space, so they are dedicated to larger surface toilets. In the case of smaller spaces or built-in furniture, universal countertop washbasins are recommended.

The unique VAYER® SERPENS series is the result of many months of designers' and technologists' cooperation. The elements, refined in every detail, were designed and made with great care and are characterized by a perfectly smooth and shiny surface.

## Everyday comfort

The VAYER® SERPENS bathtub combines the timeless beauty of form and functionality for many years. The reinforced construction and innovative production technology make the bathtub of this series extremely durable. Innovative antibacterial coating makes it easier to keep the bathtub clean and makes the water, along with sediments and troublesome stone, flow on the surface without settling on the walls of the bathtub.

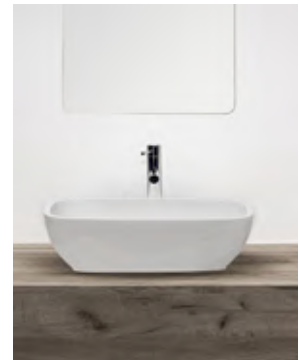

# VAYER® SERPENS

# NEW

## Timeless design

The VAYER® SERPENS series is an absolute novelty in our offer. This is a new, timeless quality in the style of VAYER®. The classic, tasteful design of this line was created for a refined and timeless interior. The symmetrical shape of the series elements gently expands upwards, adding the elegance and lightness to the collection. The stylish look of the bathtub and washbasins from the VAYER® SERPENS series sets new trends in the arrangement of contemporary bathroom spaces. Due to its universal character, the collection looks great both in traditional and modern interiors, adding them chic for many years.

**164.074.057.1-4.0.3.0.0**  
Freestanding bathtub  
1644 x 743

**054.030.087.3-4.0.3.0.0**  
Freestanding washbasin  
543 x 305 x 870

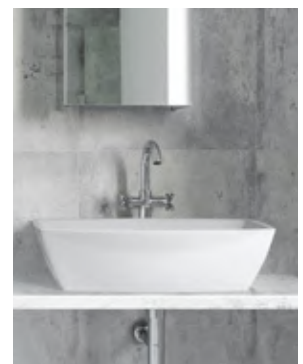

**054.030.015.3-4.0.1.0.0**  
Countertop washbasin  
543 x 305

# VAYER® GEMINI

# NEW

## Individuality with character

The VAYER® GEMINI series is a proposal for customers who value an extraordinary and expressive style in interior design. Complementary bathroom collection VAYER® GEMINI includes a freestanding bathtub, column and countertop washbasin. The characteristic sharp lines make this collection very expressive and at the same time extremely elegant. The shapes of basins and bathtubs were placed on a delicately sketched narrow base. The original stylistics of this line will perfectly blend in with modern minimalist space decorations, giving each interior more character and stylish individuality.

**146.073.057.1-7.0.3.0.0**  
Freestanding bathtub  
1462 x 739

**055.030.085.3-7.0.3.0.0**  
Freestanding washbasin  
559 x 303 x 850

**055.030.015.3-7.0.1.0.0**  
Countertop washbasin  
559 x 303

The contoured internal walls of the VAYER® GEMINI series bathtub aid rest and relaxation during bathing. The slope of the bathtub head provides comfortable positioning of the body.

The bottom is particularly durable due to the double reinforcement. Additional reinforcement suppresses sounds, causes the bottom to be smooth, does not bend under the weight and allows you to maintain adequate water temperature for a long time.

An additional advantage is the possibility of an aesthetic external overflow installation.

## Beauty and durability

The VAYER® GEMINI bathtub is made of the highest quality, shiny, snow-white conglomerate. Cast marble is a high-quality composite material containing as much as 75% natural marble. The products made of it are characterized by elegance and exceptional smoothness of surface, high resistance to external factors and various types of mechanical stimuli.

# VAYER® CARINA

## Delicate oval line

For the most demanding admirers of hot bathing we have selected a luxurious line of oval conglomerate bathtubs with sophisticated, elegant design in five colours. VAYER® CARINA bathtub has a perfectly contoured shape to provide a maximum bathing comfort.

Thanks to modern conglomerate technology VAYER® CARINA bathtubs have perfect thermal insulation properties so that your daily baths last even longer.

In a VAYER® CARINA model a discreet slotted overflow was used. There is also a possibility to choose the bathtub without overflow.

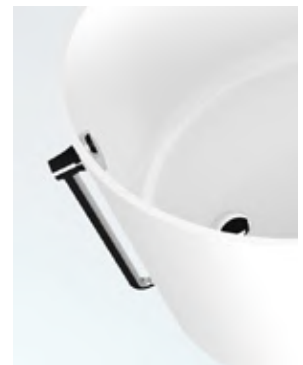

**170.085.045.1-4.0.3.0.1**  
Freestanding bathtub 1700 x 850

# VAYER® CETUS

## Comfort in XXL size

A freestanding bathtub is a dignified culmination of large stylish SPA salon bathrooms. It gives the interior touch of luxury and elegancy. A comfortable model of a freestanding new conglomerate VAYER® CETUS bathtub in XXL size is dedicated to big and spacious bathrooms.

The bathtub is available in five elegant colours from palette used also for washbasins and shower trays.

A characteristic shape of the bathtub with an elevated edge provides the comfort of use. Everyone will easily find the best support for the back and will relax enjoying the full pleasure of bathing.

A possibility to choose between an external chrome overflow and without overflow option.

**180.085.040.1-4.0.3.0.0**  
Freestanding bathtub 1800 x 850

In a VAYER® CETUS model it is possible to choose the colour of external surface from colour palette.

# VAYER® NOVA

# NEW

## Stylish individuality

The spacious VAYER® NOVA bathtub combines a unique, eye-catching look and maximum comfort of use. This is the perfect offer for spacious bathing rooms. Thanks to the central location of the bathtub, the functionality of the entire bathroom interior increases, which additionally takes on a more sophisticated, almost luxurious character.

The gentle round shape of the VAYER® NOVA bathtub fits perfectly with the countertop or column VAYER® SERPENS washbasins.

The VAYER® NOVA conglomerate bathtub is a model with a flat base, designed for mounting directly on the floor. In order to properly install the bathtub so that its bottom adheres perfectly to the floor it is necessary to undercut the floor about 10 cm to install the siphon.

**180.094.047.1-4.0.3.0.0**

Freestanding bathtub without overflow 1800 x 940

# VAYER® RETRO

# NEW

## English classic

The VAYER® RETRO freestanding bathtub is the essence of English style. People who value comfort, space and charm of traditional interiors will certainly appreciate its original form and exceptional functionality. VAYER® RETRO bathtub made with the utmost care for every detail is an element of the bathroom decor, which is characterized by a truly classic beauty, extreme originality and excellent performance. The bathtub is made of the highest quality materials and covered with an antibacterial coating.

English retro style bathrooms are becoming more and more popular in today's interior design trends. This fashionable, yet classic design fits perfectly into large bathrooms and bathing salons. Each armature and decoration should be properly selected so that the whole resembles a palace bathroom.

Option to choose an external aesthetic flow in the colour of the battery or the legs cover.

**169.082.049.1-4.0.3.0.0**  
Freestanding bathtub without overflow 1690 x 820

The offer includes simple legs covers in white and black colour.

# VAYER® LIBRA

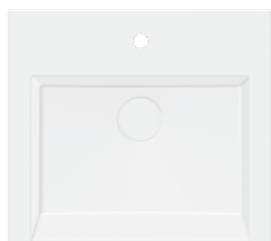

## Geometric simplicity

VAYER® LIBRA is a name of unusual, modern rectangular countertop washbasins made of mineral material.

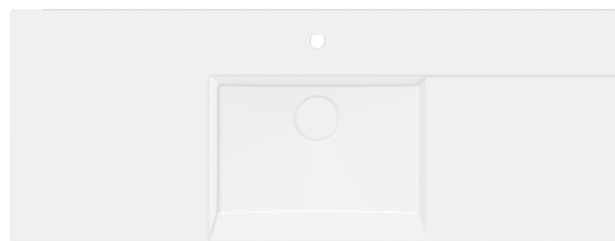

A large bowl provides comfortable use and a modern line perfectly harmonises with minimalist interiors of modern bathrooms. Profiled rims and edges add a distinctive character to simple geometric solids.

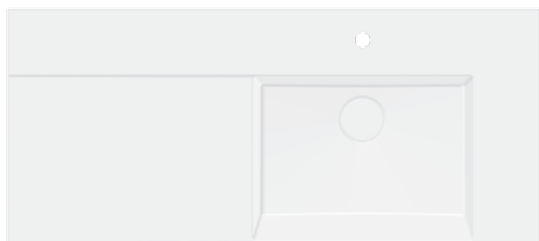

The design of VAYER® LIBRA countertop washbasins basically comes down to maximum simple form and modern technology.

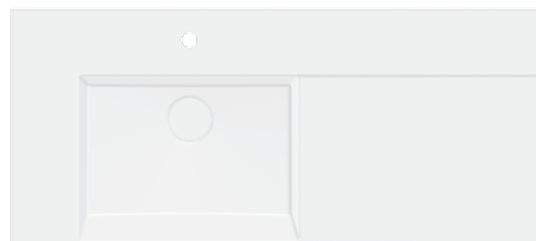

**060.053.015.3-1.0.1.1.0**  
Single countertop washbasin 605 x 535

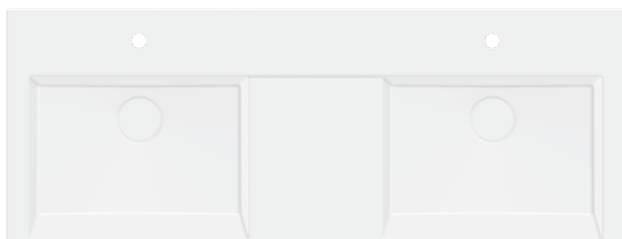

**120.053.015.3-1.0.1.1.0**

Right countertop washbasin 1205 x 535

**160.053.015.3-1.0.1.2.0**  
Double countertop washbasin 1605 x 535

# VAYER® LEPUS

# NEW

## Breakthrough subtlety

The VAYER® LEPUS collection is an absolute novelty in the offer. A unique series of countertop washbasins with simple, geometric shapes and extremely delicate edges, makes it a breakthrough in designing the bathroom interior and one of the most fashionable and interesting solutions dedicated to elegant and stylish spaces. The washbasin is available in white. The cover of the drain is covered from the bottom with a layer of gel coat, which prevents from moisture remaining.

The drain is covered by a lid that gives the washbasin a unique design. The lid is available in white or black.

The outer walls of the washbasins are very thin, but despite their very small dimensions, they are characterized by exceptional hardness and durability thanks to the latest production technology and an innovative EVERHARD® coating. **The washbasin can be mounted as a hanging or a countertop one without the necessity of moving it towards the wall.**

**060.042.012.3-1.0.1.x.0.MB**  
Countertop washbasin 600 x 425  
without mounting holes with a white cover

**060.042.012.3-1.0.4.x.0.MB**  
Hanging washbasin 600 x 425  
with mounting holes and a white cover

**060.042.012.3-1.0.1.x.0.MC**  
Countertop washbasin 600 x 425  
without mounting holes with a black cover

**060.042.012.3-1.0.4.x.0.MC**  
Hanging washbasin 600 x 425  
with mounting holes and a black cover

Vayer Lepus washbasin is also available in hanging version - wall mounting. Factory made mounting holes allow for very precise and easy installation of the washbasin on the wall.

## Precision in every detail

VAYER® LEPUS conglomerate washbasins are the essence of modern elegance. Perfectly contoured thin edges with a minimal curved radius give the body a delicate appearance and visual lightness. An innovative and functional solution in the form of a discreet outflow under the flip cover makes the washbasin truly original.

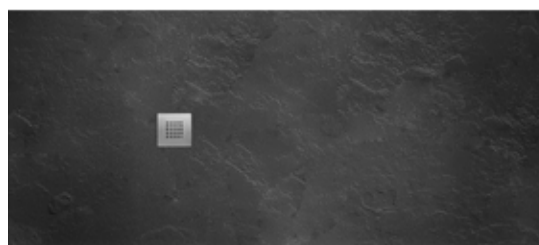

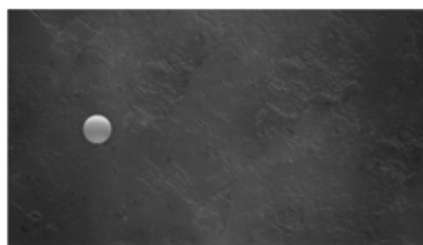

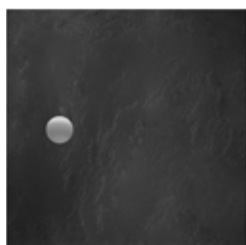

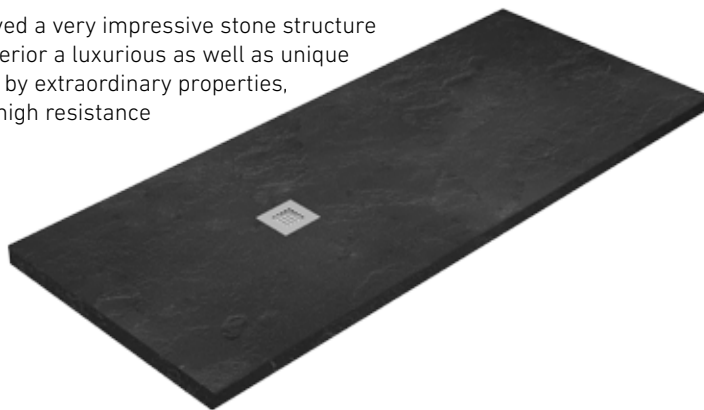

# VAYER® ROCK

## The natural structure of the stone

The VAYER® ROCK series is an elegant alternative to standard acrylic shower trays.

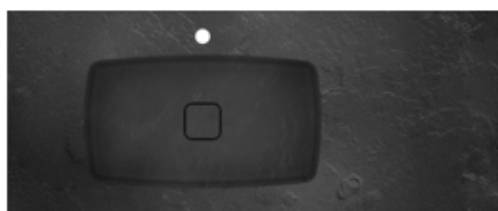

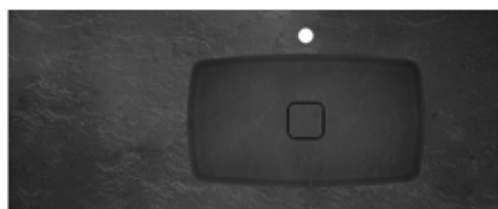

Thanks to modern technology production we have received a very impressive stone structure with a distinctive, deep and natural decor. It gives the interior a luxurious as well as unique character. VAYER® ROCK shower trays are characterized by extraordinary properties, such as maintaining a constant warm temperature and high resistance to abrasion and all kinds of dirt.

**080.080.001.2-6.0.0.0.0**  
Shower tray TAURUS 800 x 800

**120.080.001.2-1.0.0.0.0**  
Shower tray TAURUS 1200 x 800

**200.090.001.2-1.0.0.0.0**  
Shower tray TAURUS 2000 x 900  
(the possibility of cutting a shower tray to particular dimensions)

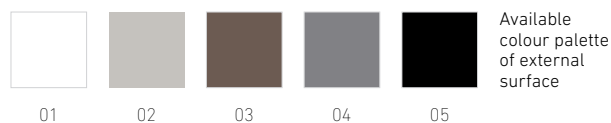

## Stone structure washbasins

Conglomerate washbasins with a central counter, left or right are available in 5 colours and elegant stone structure. The longest washbasin can have a maximum dimension of 2700 x 505 or can be cut to minimum dimension of 600 x 505.

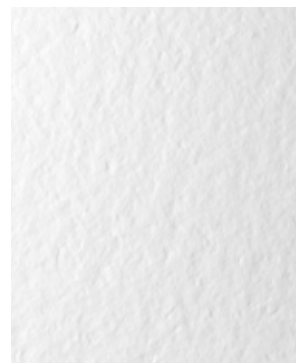

Washbasins LEO  
1210 x 505 / 2700 max - 600 min

## The pleasure of bathing

VAYER® KRONOS shower trays are made of the highest quality conglomerates of matte stone structure. The material has non slip properties which guarantee safety of use. Smooth surface makes it easy to keep shower trays clean and eliminates the growth of dangerous bacteria. Conglomerate perfectly keeps warm and provides optimum temperature even during long baths.

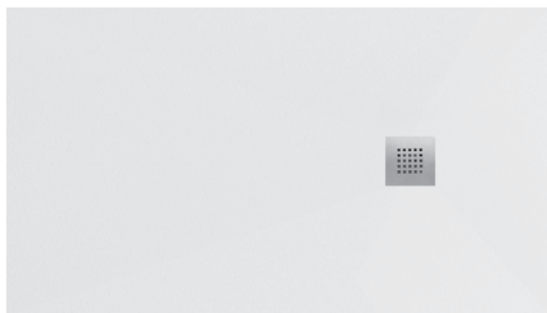

# VAYER® KRONOS

## The charm of matte stone

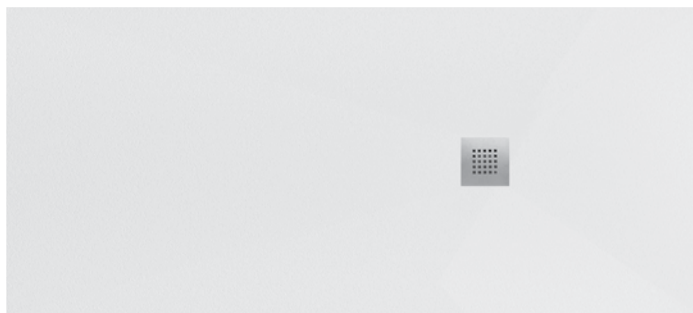

VAYER® KRONOS is a series of conglomerate shower trays available in various dimensions and five standard colours. Aesthetical subtle pattern with a delicate non slip structure creates an original visual effect in a bathroom.

## TECHNICAL DATA

### Drawings and dimensions of products

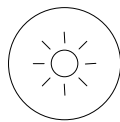

Detailed technical drawings of our products will allow you to familiarize with their parameters. Under the drawings there are all dimensions and technical data of each model. At the end of the catalogue there is a coding table that clearly illustrates the key to product numbering.

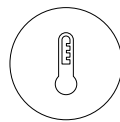

No bubbles

Warm surface

UV resistance

Heat resistance

Chemical resistance

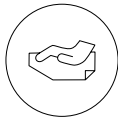

Scratch resistance

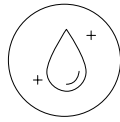

Abrasion resistant

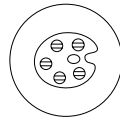

Indifference to odours

Easy cleaning

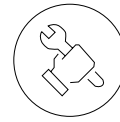

Antimicrobial technology

Colour palette

Non-flammable

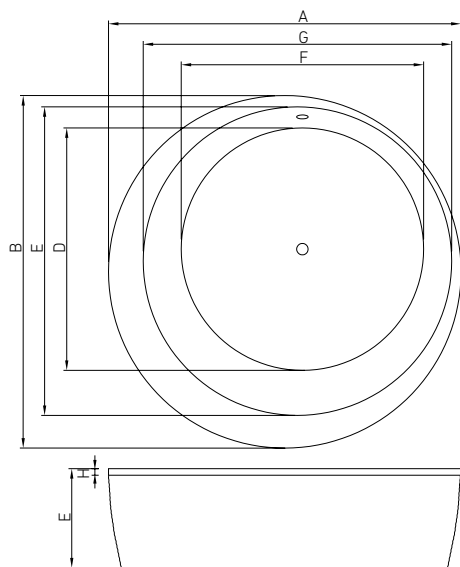

Easy to fix

Stains resistant

#### VAYER OVAL 160.160.058.4-5.0.3.0

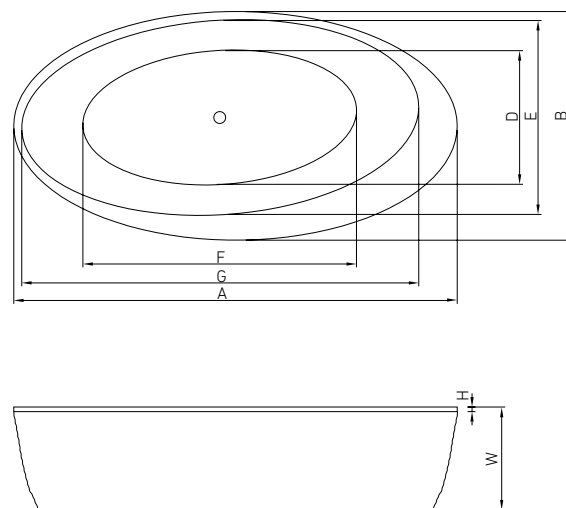

Round freestanding bathtub with grooved panel ø1600

A	B	D	E	F	G	H	W	[L]
1600	1600	450	1100	1400	1100	1400	30	320

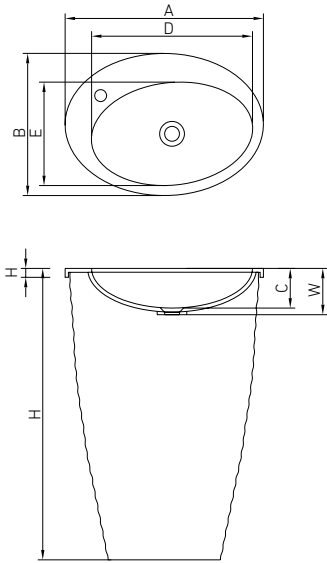

#### VAYER OVAL 194.100.058.4-4.0.3.0 PK

Oval freestanding bathtub with grooved panel 1940 x 1000

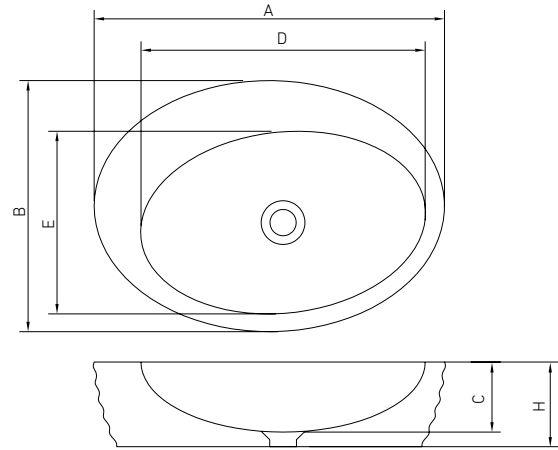

A	B	D	E	F	G	H	W	[L]
1940	1000	600	850	1200	1740	30	600	285

VAYER OVAL  
**060.043.088.3-4.0.3.0 PK**  
 Freestanding grooved washbasin 600 x 430 x 880

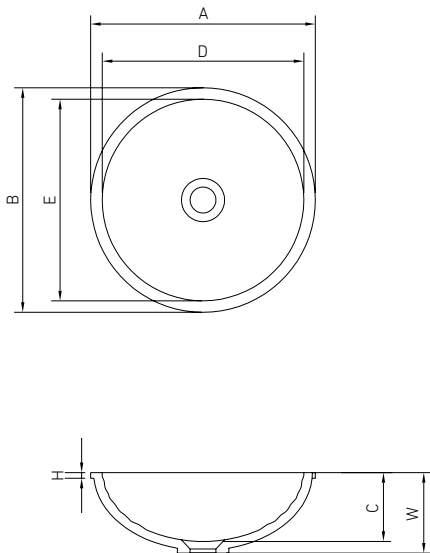

A	B	C	D	E	W	H
600	430	120	487	313	140	27/870

VAYER OVAL  
**060.043.012.3-4.0.3.0**  
 Countertop washbasin 600 x 430 x 150

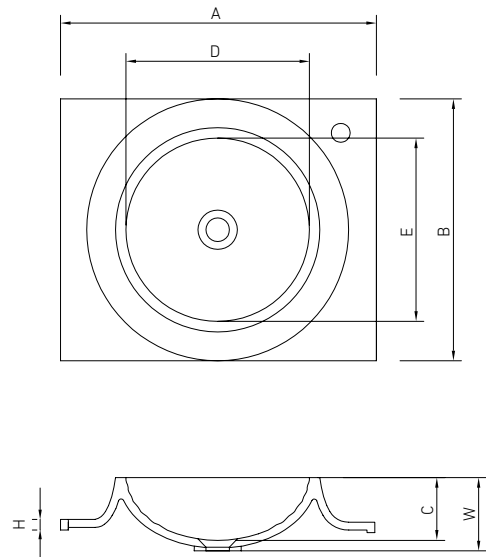

A	B	C	D	E	H
600	430	120	487	313	150

VAYER OVAL  
**035.035.012.3-5.0.2.0 A**  
 Inset washbasin ø350

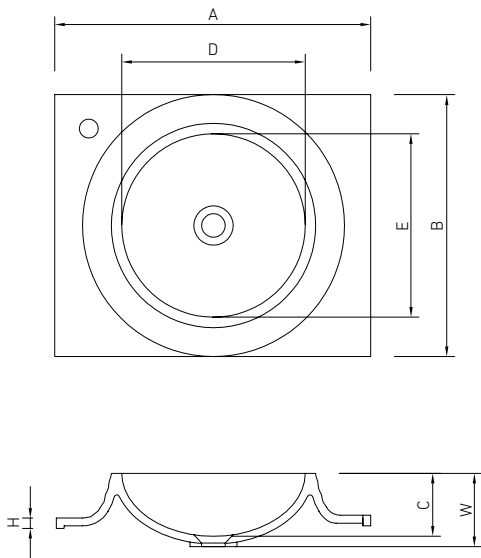

A	B	C	D	E	H	W
398	398	120	350	350	10	140

## TECHNICAL DATA

### Product coding scheme

#### XXX.XXX.XXX.X-X.X.X.X.X

The trade name of the product

The 15-digit labeling of VAYER® products should be read on the basis of the following coding table.

XXX.	XXX.	XXX.	X -	- X.	X.	X.	X.	X.	X
Lenght	Width	Depth	(1) Bathtub	(1) Rectangle	(1) Left	(1) Countertop	The number of tap holes	(0) Without overflow	(PG) Smooth panel
			(2) Shower tray	(2) Asymmetric	(2) Right	(2) Undercounter		(1) With overflow	(PK) Corrugated panel
			(3) Washbasin	(3) Symmetric	(0) Other	(3) Freestanding			(MB) White cover
			(4) Panel	(4) Oval		(4) Hanging			(MC) Black cover
			(5) Mirror	(5) Round					
			(6) -----	(6) Square					
			(7) Leg-set	(7) Other					
			(8) Counter
